

ExamLabs

DevNet Associate (DEVASC)

Study Guide

Exam 200-901

Contents at a Glance

Chapter 1 Introduction to Cisco DevNet Associate Certification

Chapter 2 Software Development and Design

Chapter 3 Introduction to Python

Chapter 4 Python Functions, Classes, and Modules

Chapter 5 Working with Data in Python

Chapter 6 Application Programming Interfaces (APIs)

Chapter 7 RESTful API Requests and Responses

Chapter 8 Cisco Enterprise Networking Management Platforms and APIs

Chapter 9 Cisco Data Center and Compute Management Platforms and APIs

Chapter 10 Cisco Collaboration Platforms and APIs

Chapter 11 Cisco Security Platforms and APIs

Chapter 12 Model-Driven Programmability

Chapter 13 Deploying Applications

Chapter 14 Application Security

Chapter 15 Infrastructure Automation

Chapter 16 Network Fundamentals

Chapter 17 Networking Components

Chapter 18 IP Services

ExamLabs

Contents

Chapter 1 Introduction to Cisco DevNet Associate Certification

Do I Know This Already?

Foundation Topics

Why Get Certified

Cisco Career Certification Overview

Cisco DevNet Certifications

 Cisco Certified DevNet Associate Certification (DEVASC)

 Cisco Certified DevNet Professional Certification

Cisco DevNet Overview

 Discover

 Technologies

 Community

 Support

 Events

 DevNet Automation Exchange

Summary

Chapter 2 Software Development and Design

“Do I Know This Already?” Quiz

Foundation Topics

Software Development Lifecycle

 Waterfall

 Lean

 Agile

ExamLabs

Common Design Patterns

Model-View-Controller (MVC) Pattern

Observer Pattern

Linux BASH

Getting to Know BASH

Directory Navigation

cd

pwd

ls

mkdir

File Management

cp

mv

rm

touch

cat

Environment Variables

Software Version Control

Git

Understanding Git

Using Git

Cloning/Initiating Repositories

Adding and Removing Files

Committing Files

Pushing and Pulling Files

Working with Branches

ExamLabs

Merging Branches

Handling Conflicts

Comparing Commits with diff

Conducting Code Review

Exam Preparation Tasks

Review All Key Topics

Define Key Terms

Chapter 3 Introduction to Python

“Do I Know This Already?” Quiz

Foundation Topics

Getting Started with Python

Understanding Python Syntax

Data Types and Variables

Variables

Data Types

Integers, Floating Point, and Complex Numbers

Booleans

Strings

Lists

Tuples

Dictionaries

Sets

Input and Output

Getting Input from the User

The Mighty print() Function

Flow Control with Conditionals and Loops

ExamLabs

If Statements

For Loops

While Loops

Exam Preparation Tasks

Review All Key Topics

Define Key Terms

Additional Resources

Chapter 4 Python Functions, Classes, and Modules

“Do I Know This Already?” Quiz

Foundation Topics

Python Functions

Using Arguments and Parameters

Object-Oriented Programming and Python

Python Classes

Creating a Class

Methods

Inheritance

Working with Python Modules

Importing a Module

The Python Standard Library

Importing Your Own Modules

Useful Python Modules for Cisco Infrastructure

Exam Preparation Tasks

Review All Key Topics

Define Key Terms

Chapter 5 Working with Data in Python

ExamLabs

“Do I Know This Already?” Quiz

Foundation Topics

File Input and Output

Parsing Data

- Comma-Separated Values (CSV)

- JavaScript Object Notation (JSON)

- Extensible Markup Language (XML)

- YAML Ain't Markup Language (YAML)

Error Handling in Python

Test-Driven Development

Unit Testing

Exam Preparation Tasks

Review All Key Topics

Define Key Terms

Additional Resources

Chapter 6 Application Programming Interfaces (APIs)

“Do I Know This Already?” Quiz

Foundation Topics

Application Programming Interfaces (APIs)

- Northbound APIs

- Southbound APIs

- Synchronous Versus Asynchronous APIs

- Representational State Transfer (REST) APIs

- RESTful API Authentication

- Basic Authentication

- API Keys

ExamLabs

Custom Tokens

Simple Object Access Protocol (SOAP)

Remote-Procedure Calls (RPCs)

Exam Preparation Tasks

Review All Key Topics

Define Key Terms

Chapter 7 RESTful API Requests and Responses

“Do I Know This Already?” Quiz

Foundation Topics

RESTful API Fundamentals

API Types

API Access Types

HTTP Basics

Uniform Resource Locator (URL)

Method

REST Methods and CRUD

Deep Dive into GET and POST

HTTP Headers

Request Headers

Response Headers

Response Codes

XML

JSON

YAML

Webhooks

Tools Used When Developing with Webhooks

ExamLabs

Sequence Diagrams

REST Constraints

Client/Server

Stateless

Cache

Uniform Interface

Layered System

Code on Demand

REST API Versioning

Pagination

Rate Limiting and Monetization

Rate Limiting on the Client Side

REST Tools

Postman

curl

HTTPIe

Python Requests

REST API Debugging Tools for Developing APIs

Exam Preparation Tasks

Review All Key Topics

Define Key Terms

Chapter 8 Cisco Enterprise Networking Management Platforms and APIs

“Do I Know This Already?” Quiz

Foundation Topics

What Is an SDK?

ExamLabs

Cisco Meraki
Cisco DNA Center
Cisco SD-WAN
Exam Preparation Tasks
Review All Key Topics
Define Key Terms

Chapter 9 Cisco Data Center and Compute Management Platforms and APIs

“Do I Know This Already?” Quiz
Foundation Topics
Cisco ACI
 Building Blocks of Cisco ACI Fabric Policies
 APIC REST API
UCS Manager
Cisco UCS Director
Cisco Intersight
Exam Preparation Tasks
Review All Key Topics
Define Key Terms

Chapter 10 Cisco Collaboration Platforms and APIs

“Do I Know This Already?” Quiz
Foundation Topics
Introduction to the Cisco Collaboration Portfolio
 Unified Communications
 Cisco Webex Teams
 Cisco Unified Communications Manager (Unified CM)

ExamLabs

Unified Contact Center

Cisco Webex

Cisco Collaboration Endpoints

API Options in the Cisco Collaboration Portfolio

Webex Teams API

API Authentication

Personal Access Tokens

Integrations

Bots

Guest Issuer

Webex Teams SDKs

Cisco Finesse

Cisco Finesse API

API Authentication

Finesse User APIs

Finesse Team APIs

Dialog APIs

Finesse Gadgets

Webex Meetings APIs

Authentication

Integration API Keys

Webex XML APIs

Creating a New Meeting

Listing All My Meetings Meeting

Setting or Modifying Meeting Attributes

Deleting a Meeting

ExamLabs

Webex Devices

xAPI

xAPI Authentication

xAPI Session Authentication

Creating a Session

Getting the Current Device Status

Setting Device Attributes

Registering an Event Notification Webhook

Room Analytics People Presence Detector

Cisco Unified Communications Manager

Administrative XML

Cisco AXL Toolkit

Accessing the AXL SOAP API

Using the Zeep Client Library

Using the CiscoAXL SDK

Exam Preparation Tasks

Review All Key Topics

Define Key Terms

Chapter 11 Cisco Security Platforms and APIs

“Do I Know This Already?” Quiz

Foundation Topics

Cisco’s Security Portfolio

Potential Threats and Vulnerabilities

Most Common Threats

Cisco Umbrella

Understanding Umbrella

ExamLabs

Cisco Umbrella APIs

Authentication

Cisco Firepower

Firepower Management Center APIs

Cisco Advanced Malware Protection (AMP)

Listing All Computers

Listing All Vulnerabilities

Cisco Identity Services Engine (ISE)

ISE REST APIs

ERS API Authentication

Creating an Endpoint Group

Creating an Endpoint and Adding It to a Group

Other ISE APIs

Cisco Threat Grid

Threat Grid APIs

Threat Grid API Format

API Keys

Who Am I

The Data, Sample, and IOC APIs

Feeds

Exam Preparation Tasks

Review All Key Topics

Define Key Terms

Chapter 12 Model-Driven Programmability

“Do I Know This Already?” Quiz

Foundation Topics

ExamLabs

NETCONF

YANG

RESTCONF

Model-Driven Telemetry

Exam Preparation Tasks

Review All Key Topics

Define Key Terms

Chapter 13 Deploying Applications

“Do I Know This Already?” Quiz

Foundation Topics

Application Deployment Models

NIST Definition

- Essential Characteristics

- Service Models

Application Deployment Options

- Private Cloud

- Public Cloud

- Hybrid Cloud

- Community Cloud

- Edge and Fog Computing

Application Deployment Methods

Bare-Metal Application Deployment

Virtualized Applications

Cloud-Native Applications

Containerized Applications

Serverless

ExamLabs

DevOps

What Is DevOps?

Putting DevOps into Practice: The Three Ways

First Way: Systems and Flow

Second Way: Feedback Loop

Third Way: Continuous Experimentation and Learning

DevOps Implementation

Docker

Understanding Docker

Namespaces

Cgroups

Union File System

Docker Architecture

Using Docker

Working with Containers

Dockerfiles

Docker Images

Docker Hub

Exam Preparation Tasks

Review All Key Topics

Define Key Terms

Additional Resources

Chapter 14 Application Security

“Do I Know This Already?” Quiz

Foundation Topics

Identifying Potential Risks

ExamLabs

Common Threats and Mitigations

Open Web Application Security Project

Using Nmap for Vulnerability Scanning

Basic Nmap Scan Against an IP Address or a Host

CVE Detection Using Nmap

Protecting Applications

Tiers of Securing and Protecting

Encryption Fundamentals

Public Key Encryption

Data Integrity (One-Way Hash)

Digital Signatures

Data Security

Secure Development Methods

Securing Network Devices

Firewalls

Intrusion Detection Systems (IDSs)

Intrusion Prevention Systems (IPSs)

Domain Name System (DNS)

Load Balancing

Exam Preparation Tasks

Review All Key Topics

Define Key Terms

Chapter 15 Infrastructure Automation

“Do I Know This Already?” Quiz

Foundation Topics

Controller Versus Device-Level Management

ExamLabs

Infrastructure as Code

Continuous Integration/Continuous Delivery Pipelines

Automation Tools

Ansible

Puppet

Chef

Cisco Network Services Orchestrator (NSO)

Cisco Modeling Labs/Cisco Virtual Internet Routing
Laboratory (CML/VIRL)

Python Automated Test System (pyATS)

Exam Preparation Tasks

Review All Key Topics

Define Key Terms

Chapter 16 Network Fundamentals

“Do I Know This Already?” Quiz

Foundation Topics

Network Reference Models

The OSI Model

The TCP/IP Model

Switching Concepts

Ethernet

MAC Addresses

Virtual Local-Area Networks (VLANs)

Switching

Routing Concepts

IPv4 Addresses

ExamLabs

IPv6 Addresses

Routing

Exam Preparation Tasks

Review All Key Topics

Define Key Terms

Chapter 17 Networking Components

“Do I Know This Already?” Quiz

Foundation Topics

What Are Networks?

Elements of Networks

Hubs

Bridges

Switches

Virtual Local Area Networks (VLANs)

Routers

Routing in Software

Functions of a Router

Network Diagrams: Bringing It All Together

Software-Defined Networking

SDN Controllers

Cisco Software-Defined Networking (SDN)

Exam Preparation Tasks

Review All Key Topics

Define Key Terms

Chapter 18 IP Services

“Do I Know This Already?” Quiz

ExamLabs

Foundation Topics

Common Networking Protocols

Dynamic Host Configuration Protocol (DHCP)

Server Discovery

Lease Offer

Lease Request

Lease Acknowledgment

Releasing

Domain Name System (DNS)

Network Address Translation (NAT)

Simple Network Management Protocol (SNMP)

Network Time Protocol (NTP)

Layer 2 Versus Layer 3 Network Diagrams

Troubleshooting Application Connectivity Issues

Exam Preparation Tasks

Review All Key Topics

Define Key Terms
